The Star and Sentinel.

"THERE SHALL BE NO NIGHT THERE."
Softly fall the evening sunbeams,
Over wood, and field, and lane,
Streaming full in chastened radiance,
Lighting up each cottage pane.

Now the evening star arises,
Glittering in the Summer light;
Deeper, longer, grow the shadows,
Daylight fades away from sight.

Hushed in every sound and tumult,
E'en the birds have ceased their songs;
Peaceful grows each weary spirit,
Quiet, every restless throng.

Sweetly now the moonbeams tremble,
Gleaming on our curtains white,
Skimmering gently through the lattice,
With a radiance soft and bright.

Like some Guardian Angel holy,
Looking down with eyes of love,
Bringing thoughts both pure and happy,
Of the sinless Home above;

Where no sun nor moon is needed,
Where no shadow ever falls,
Nought of evil cometh thither,
Nought of sorrow e'er befalls.

FATHER! when our sun is sinking,
Shine upon the awful way;
Guide us through the shadows dreary,
That our footsteps may not stray.

Gentle Spirit, Dove of Heaven!
Whisper of the Holy Rest
That remains for all Thy people,
Who have ever Thee confessed.

To Thy Fold, O! Blessed Shepherd,
May Thy children gladly come;
Let not one dear face be missing,
Gather all Thy wanderers home.
—*Churchman's Companion.*

BEAUTIFUL SENTIMENT.
There's many a gem unpolished
And many a star unknown—
Many a bright bud perished,
Neglected and alone—
When had a word been spoken,
In a kindly, gentle tone,
The bud had bloomed unbroken,
The gem had graced a throne.

Then O! scorn not the lowly,
Nor do them any wrong,
Lest thou crush an impulse holy,
Or blight a soul of song.

BEAUTIFUL THOUGHTS.
The same God who moulded the sun and kindled the stars, watches the flight of the insect. He who balances the clouds and hung the earth upon nothing notices the fall of the Sparrow. He who gives Saturn his rings and placed the moon like a ball of silver in the broad arch of heaven, gives the rose leaf a delicate tint, and made the sun to nourish the violet. And the same Being notices the prayers of the cherubim and the prayers of the little children. There is but a breath of air and a beating of the heart betwixt this world and the next. And in the brief interval of awful suspense, while we feel that death is present with us, that the last pulsation here is but the prelude of endless life hereafter; we feel in the midst of the stunning calamity about to befall us, that earth has no compensating good to mitigate the severity of our losses. But there is no grief without some beneficent provision to soften its intenseness. When the good and the lovely die, the memory of their good deeds, like moonbeams upon the stormy sea, lights up our darkened hearts and lends to the surrounding gloom a beauty so sad, so sweet that we would not, it we could, dispel the darkness that environs them.

SCRAPS FROM LIFE.—"Papa 's come!" And eyes grow brighter and feet go lighter, and all the home seems filled with fairies. As the merry shout goes out from heart and soul, so full of mirth and music, so full of life and love, the birds sing softly, and the zephyrs stop to listen, and the life forgets to be weary.

"Papa 's come!" Day after day 'tis the same joyous pulsation, never feeling less, never weary of loving, never growing cold.—Though the stern realities of life come upon us, and seize our time and thoughts and strength, and though cares and troubles absorb us entirely, the merry shout of "papa 's coming!" makes everything light and easy, and makes the sun-shine brighter than before.

"Papa 's coming!" and willing hands will take off half your burden, and a willing heart will take all your care, and just appreciation will make you happier and more beautiful than before.

"Papa 's come!" A strange and curious thing, this impress of a stronger life upon a home. Children fly to it, expand in it, love it. Woman would be desolate without it; she would sadly miss its gaiety and mirthfulness.

"Papa 's come!" And night has come, and quiet and appreciation and earnestness and confidence and rest. The home is still, and true hearts beat in unison. Happy home, happy father, happy mother, joyous children! Sing your songs of peace, angels will hear them; raise your voices in prayers of thankfulness, God will hear them. Sing softly in your heart of hearts, "Papa 's come, may God protect him!"

ERRORS.—The little that I have seen of the world and known of the history of mankind, teaches me to look upon their errors in sorrow, not in anger. When I take the history of one poor heart that has sinned and suffered, and represent to myself the struggles and temptations it passed through; the tears of regret; the brief pulsations of joy; the feebleness of purpose; the scorn of the world that has little charity; the desolation of the soul's sanctuary and threatening voices within; health gone, happiness gone, I would fain leave the soul of my fellowman with him from whose hands it came.

In all questions involving duty we act from sentiments. It is true that men often forget them and act against their bidding in the keen competition of business and politics. But God has not left the hard intellect of man to work out its devices without the constant presence of beings with gentler and purer instincts. The heart of woman is the ever-rocking cradle of the pure and holy sentiments which will sooner or later steal their way into the mind of her sterner companion; which will by and by emerge into the thought of the world's teachers, and at last thunder forth in the edicts of its law givers and masters.

As the infant begins to discriminate between the objects around, it soon discovers one countenance that ever smiles upon it with peculiar benignity. When it wakes from its sleep, there is one watchful form ever bent over its cradle. If startled by some unhappy dream, a guardian angel seems ever ready to soothe its fears. If cold, that ministering spirit brings it warmth; if hungry, she feeds it; if happy, she caresses it. In joy or in sorrow, in weal or woe, she is the first object of its thoughts. Her presence is Heaven. The mother is the deity of infancy.

LOVE harmonizes and sweetens everything in life; while hate embitters and darkens all thought and action.

LAUGHABLE.

The following amusing incident is related in the Cortland (N. Y.) *Gazette*:

"A very amusing affair occurred last Sabbath morning in a church not far from this village. The clergyman was discoursing as eloquently as the state of the weather would permit, yet one of his auditors—a young lady—was so overcome by the heat as to fall asleep in the midst of the discourse. Those behind her were somewhat amused, observing her efforts to keep her head in a perpendicular position. The superintendent of the Sabbath school happening to look around just as the lady's head was going over backward, supposed she had fainted, and springing to his feet called out to the doctor to stop and send down from the desk a tumbler of water, which request was immediately complied with and a copious supply of water was administered to the somnolent young lady before she had time to fairly recover herself. A number of sympathizing ones gathered about her, but she soon retired from the audience room with a face too crimson to comport with a fainting fit. When she sleeps in church again, it will probably be with one eye open."

AN AWFUL MUDDLE.—The following is a melancholy illustration of the uncertainty of the types. A young gentleman by the name of Conkey having united in the holy bands of wedlock, sent the marriage notice, with a couplet of his own composition, to a local paper for publication, as follows:

"Married—On August 1st, A. Conkey, Esq., Attorney at Law, to Miss Euphremia Wiggins.

"Love is the union of two hearts that beat in softest melody.
Time with its ravages imparts no bitter fusion to its ecstacy."

Mr. Conkey looked with much anxiety for the issue of the paper, that he might see his name in print. The typo into whose charge the notice was placed happened to be on a spree at the time, and made some wonderful blunders in setting it up, thus:

"Married—On August 1st. A Donkey, Esq., Eternally at law, to Miss Euphunia Piggins.

"Jove is an onion with two heads that belt in softest melony.
Time with its cabbages imparts no better food to an extra dray."

ONE day after the horrible catastrophe on the Dijon Railway, an old man who had escaped by a miracle from the crushed cars, presented himself at the place of disaster. A workman, who was collecting the debris and clearing the track, inquired what he wanted.

"Monsieur, I am one of the victums."

The workman looked up, and seeing a man without an injury, inquired, "Whom have you lost, then—your wife, your child, any friend?"

"No, Monsieur, I have lost my umbrella."

The workmen searched among the broken cars, and by a singular chance found the umbrella.

"There," said he, giving it to the peasant, "you are lucky to get out of the scrape in this way."

"You call that lucky?" returned the man; "look here—they have broken two whalebones."

A GOOD STORY.—Gen. John A. Logan, in a recent speech, told the following neat story of army life:

At Kenesaw Mountain we had in our command an Irishman by the name of Jimmy.—They had a great many Irishmen on the other side. We had a little truce there, and the men on both sides were allowed to talk together awhile. Jimmy recognized in one of the rebels an old acquaintance named Paddy, and says he: "What the d—l are you doing on that side?" "Why, this is the side of the Government, sure," says Jimmy, "I'm on the loyal side." "The d—l you are," says Paddy: "ain't that the Abolition side? Be dad, and I'm on the Democratic side, any how:"—[Cheers.] He was satisfied that he was on the side that he had always voted on, and that he was still following in the ranks of his party.

QUICK WITTED.—A down East Agriculturist last summer required a number of reapers. Several presented themselves, and all were engaged with one exception. The poor man thus omitted said:

"Mister, won't you hire me?"

"No," said the farmer.

THE ELECTIONS.

The elections of last Tuesday resulted as follows:

In NEW YORK, the Copperhead State ticket was elected by about 40,000 majority. The Republicans have secured a majority in the Senate, and the Cops in the House. The latter have the majority on joint ballot, which will give them a Police Commissioner for New York.—The Senators hold office for two years; the Assemblymen for one. The Senate being Republican is so much secured on the U. S. Senatorship which will be filled at the session of 1869. The Copperhead majority in New York City is 61,000—being a gain of 14,000 on last year. The Republican vote was 8,000 less, and the Cop. vote 6,000 more than last year.—Frauds are charged as usual, and there were no doubt many illegal votes cast; but our party was not harmonious or united, and defection was the result.—The Raymond and Weed men claim to have been badly treated at the last Republican State Convention, and were indifferent as to the result. The *World* admits that the victory was largely due to the dissatisfied Republican element.—A considerable number of German Republicans "bolted" on account of Temperance and Sabbath legislation which they construed as an infringement upon their personal rights. Besides, the next Presidency entered into the controversy—the Raymond wing, who are for GRANT, feeling that a defeat of the regular ticket would have the effect of killing off Judge CHASE who is the preference of the Greeley wing, forcing the abandonment of some special measures to which they are opposed, and compelling the nomination of Gen. GRANT, whom they consider less radical than Judge CHASE. We gather these various facts and theories from the papers, and presume they account for the result, in large part. The result involved only the election of a few State officers, and involves no loss whatever which may not be made up next year. The Republicans elected their candidate for the National House of Representatives, to succeed Mr. CONKLING, made U. S. Senator last winter.

In NEW JERSEY, the Copperheads elected five out of six State Senators chosen, which will give them a majority of one in that body, and a majority of about thirty in the House. The majority in the State—on legislative candidates—is about 10,000. No State officer was chosen, on general ticket. Our friends in JERSEY got into a general row, and have their reward. The lesson ought to do them good.

In MASSACHUSETTS, the Republicans have elected their Governor and State officers, by about 26,000 majority. The issue turned upon the Liquor Question. The enemies of Prohibition have carried a large majority in both branches of the Legislature, and the present Prohibitory law will no doubt be repealed. It was originally enacted by a Democratic Legislature many years ago, and has been added to from time to time. The last additions broke down the law, and will involve a return to the old system of License.

In MARYLAND, the Copperheads have elected their Governor and State officers, and carried every county. The majority for Governor is about 40,000. The sweep is complete, and establishes beyond dispute the sympathy of an overwhelming majority of the people of Maryland, with the Rebellion—its theories, principles, purposes, and agents. It is said that Gov. SWANN, Cop., is to be made U. S. Senator, in place of REVERDY JOHNSON, Cop. The latter has no chance of re-election, in any event. He is an able man, and SWANN is greatly inferior, and would be without standing or influence in the body.

In the West, the Republicans have done astonishingly well.

In ILLINOIS, the election was for local offices, only; and we have held our own everywhere and made gains.

In WISCONSIN, where we had reason to apprehend danger, the Republicans have elected their entire State ticket by from 3 to 5,000; and have carried both branches of the Legislature. This indicates MR. DOOLITTLE's (Cop.) defeat for re-election to the U. S. Senate next year.

In MINNESOTA, the campaign was also complicated with local questions, such as the paying of some Railroad bonds issued by the State, the Temperance Question, &c.; but the Republicans have elected their Governor and State officers, and a majority of the Legislature. The amendment to strike the word "white" from the State Constitution is adopted by a close vote.

In KANSAS, the Republicans have elected their Governor and State ticket, and the Legislature, by about 4,000. Two proposed amendments—one for Manhood Suffrage, and one for Female Suffrage—were defeated.

In MICHIGAN, the new Constitution which establishes Manhood Suffrage, has been adopted.

In MISSOURI, the Copperheads elected their candidate for Congress in the district made vacant by the death of Mr. NOELL, Copperhead. No other election was held.

The result of this year's election has been to revive the energies of the Copperhead Party, and to excite a hope of success in the Presidential Struggle of next year. But on a careful review of the field, of the causes which have been operative, and of the remedies which it is in the power of the Republican party to apply, we see NO REASON WHATEVER for doubting its continued supremacy in the Government. The elections of this year have developed, as a successful skirmish, the enemy's position, revealed his tactics, and uncovered his lines. They have given us a fund of valuable facts which will enable us, in the great and decisive campaign, to guard against disaster from surprise, treachery, rashness, or neglect.

THE Republican victory in the young State of Nebraska, was most decisive.—We have carried every county except one, and in it we elected part of our ticket, the average Democratic majority having been 25. A Registry law which made cheating impossible, cut off a favorite method of the Democracy for making majorities; and gave the *actual voters of the State* a chance to settle its political complexion.

THE REBELLIOUS SPIRIT.

Judge BULLOCK, of the Circuit Court of Kentucky, has just decided that nothing but gold or silver is a legal tender in Kentucky. The case was that of WALLS vs. SHEPHERD, wherein WALLS had purchased land from SHEPHERD, tendering United States legal tender notes in payment for the same, which were refused by SHEPHERD, he demanding gold or silver.

The Copperhead Judges of Delaware are over-riding the "Civil Rights" bill—in which they have been anticipated by their brethren of Maryland.

The spirit of these men is malignant. If they could, they would restore the *status* before the War, and count for nought all the sacrifices made to preserve the unity of the people. They would restore Slavery, revive the right of Secession, re-establish the Slaveholders in the Government of the country, and turn the dial-plate of Time back a century.—Such men hate Liberty, and are inspired by the devil.

Bad as Judge BULLOCK is, and dangerous and injurious as may be his influence, he is no worse, nor his influence more alarming, than Judge SHARSWOOD who, early in 1864, took the ground which BULLOCK has just affirmed. Were such persons the majority in our State and National Courts, it would be impossible to compute the evils they would inflict upon the people by reviving exploded doctrines, and letting loose all the vicious notions of a depraved and dishonored school of politics.

Besides, these decisions, if sustained, will work infinite mischief to the debtor interest in the country, and give great advantage to the creditor. Every man who owes will have to pay *in coin*. Gold is now at a premium of about 40 cents in the dollar, or $400 in the $1,000. A man owing $2,000 would be required to raise at least $2,800 in currency with which to buy $2,000 in gold. But the new demand which this state of things would produce, would largely *increase the present premium*, and would affect every existing value, to the further impoverishment of the poor, and the indefinite aggrandizement of the rich.

HON. JOHN M. BOTTS of Virginia, recently defeated for the Convention in Virginia, visited Washington last week, spoke plainly of the violence of some portions of the whites toward the blacks, and said that the moderation and good bearing of the latter under great provocation were extraordinary and commendable.—As illustrating the amount of freedom enjoyed in Virginia by the laboring classes, he stated that two intelligent colored blacksmiths were informed that if they voted for him as a delegate to the Convention their places of business would be destroyed. They did vote for him, and the very next evening their shops were burned to the ground. Such is Virginia "Democracy"!

WENDELL PHILLIPS delivered a lecture in Boston last week—on "The Dawdling Congress"—in which he denounced the Republican party, Gen GRANT, Senator WILSON, and other leading Republicans.

This position of hostility to the men and measures of the Republican party has been his throughout the war. Yet the Copperhead press try to fasten on the Republicans all the sentiments and declarations of one of their bitterest revilers! PHILLIPS speaks for himself. He has not half as much right to speak for the Republicans as JEFF. DAVIS has for the Copperheads; for JEFF is one with them on all the political issues of the day.

THE Copperhead papers think the mission of the Republican Party is ended.

They impliedly admit that it did a good thing when it saved the country which Copperhead office-holders and leaders abandoned to its fate. But they doubt whether it can do more good.

Its work will be but half-done, if it should fail to secure beyond recall, and by wise legislative and constitutional provisions, perfect SECURITY FOR THE FUTURE. *This*, the Copperheads are unwilling to require; but the Republicans insist upon, as indispensable. When this shall be accomplished, the Republican party will consider the Copperhead invitation to disband and die.

GOV. GEARY has issued his proclamation that the returns made show Judge SHARSWOOD's majority in the State, to be 927 votes.

We have a hope that the election will be contested before the Legislature, that *all* illegal votes will be thrown out, and that the seat will ultimately be given to the choice of a majority of those voters who were legally qualified to vote.

If our elections are not honestly conducted, and the legally chosen candidates are not to be protected in their rights, we may as well abandon the forms of an elective Government.

THE Annapolis *Gazette* says that since the elections the Democrats in that city boast "that ROBERT E. LEE or JEFF. DAVIS will oppose Gen. GRANT in the next Presidential contest, and defeat him."—LEE would receive the SHARSWOOD vote of Adams county, with probably an occasional exception. JEFF. DAVIS would not run *quite* so well, but nearly so.—BRECKINRIDGE has lost very little of the popularity he showed he had in 1860.—Our Copperheads, under the judicious teaching of their leaders, are rapidly becoming as "sound" as the Southern wing of their party, who have just laid down their arms.

THE more sensible citizens of Virginia are anxiously seeking the introduction of Northern men and capital; but such Copperhead *statesmen* as HENRY A. WISE advise "all the old Virginia stock of gentlemen" on no account to deal with, associate with, or come in contact with Northern men who settle in that State.

Evidently, the Virginia Aristocracy have not got over their dislike of "Mudsills."

WE give on our outside, an interesting article from an Adams county farmer, remarking that it will give us pleasure often to hear from our correspondent, and from others having suggestions to make on points of interest to farmers.

JAMES CHESNUT, Jr., has "turned up" as Chairman of a "Conservative" Convention in South Carolina. When last heard from, he was on BEAUREGARD'S Staff, fighting to put down the "Stars and Stripes." Now he thinks he knows how to fly them, better than those who fought *for* them.

FORNEY is out for GRANT, for the next Presidency. The New York *Tribune* prefers Chief Justice CHASE.

FACTS ABOUT FREEDMEN.

Gen. O. O. HOWARD has written an interesting letter about Freedmen, from which we condense these facts:

The colored population of the United States has *increased* since 1860.

About 250,000 were in the Union army.

The cotton crop of 1867, notwithstanding the numerous discouragements incident to the change from Slave to Free labor, is estimated at 2,300,000 bales—being nearly two-thirds of the largest crop ever raised, while the grain crop is double that ever raised in the South, and there has been a fair yield of rice, sugar and tobacco. All this by the much despised labor of Freedmen!

During the present year, the Freedmen have deposited in their Savings Banks nearly eight millions of dollars, which are bearing six per cent. interest for the owners—showing a marked degree of thrift and prosperity among them.

The taxable property of colored persons in Louisiana alone, is assessed at nearly *eighteen millions of dollars*, on which they are taxed for all purposes.

About 638,000 colored children are now in attendance upon Schools in the South; and the entire colored population is manifesting the deepest interest in education.

On the whole, their progress in industry, education, and thrift has been remarkable, and has falsified all the predictions and hopes of the enemies of this long-oppressed and deeply-injured people.

A GREAT Democratic light has gone out. SAM OVENSHINE is dead. In the glorious days when the Locofoco Party ran riot upon the Columbia railroad, SAM was a leader in the ring, and right famous his name became, among the faithful, for his skill in having one cord of wood counted and paid for from two to ten times. When the Public Works were sold, and this form of thieving was stopped, SAM retired from public employment; but he always showed his gratitude for favors received, by standing up for the Democratic ticket.

We will never "look upon his like again"—unless Providence should find it necessary to scourge the People for their sins by putting the Copperheads in power in the Nation. Then a legion such public servants would spring up, full-armed, to prey upon the Treasury.

A FEW days before the New York election, the *World* made this appeal:

"No Southern Democrat who has acquired a residence in this State ought to neglect to register to-day and cast his vote next Tuesday."

Several thousands who were in the Rebel army during the War, and have since come North, answered this call and voted the Copperhead ticket. The same class did the same thing in October, in Pennsylvania and Ohio. They also gave the large Copperhead majority on Tuesday in Maryland.

Thus has "Treason been made odious," and have "Traitors been punished"!

FRIGHTFUL DEATH OF THREE CHILDREN.—A widow, Mrs. Blankenship, living near Bowling Green, Kentucky, went to a run to wash, taking with her her entire family, two little sons and a baby daughter, followed by their dog. The dog ran off a short distance into the woods, and began barking furiously. It was thought he had treed some game, and with the mother's consent, the little fellows went to secure it. The game proved to be a large rattlesnake. They were too small to know the nature of the creature, and delighted by its glittering coils, the eldest ran to catch the prize, saying, "I'll get him, brother." The venomous reptile darted, and struck its venomous fangs again and again into the flesh of the glowing, eager child, and wound its terrible folds about him. The younger brother ran to his rescue, and was also repeatedly bitten. Their screams brought the mother. When she arrived the eldest boy was dead, and the younger one lived but long enough to tell what had happened. The snake had crawled off, and in the woods, with the blackened and swollen corpses of her two darlings, the mother for a time forgot her infant down by the run. Returning to her, she found the corpse of her baby girl in the wash tub. She had toddled to it and fallen in head foremost. Who found her, or how she found assistance to bring to her desolate home all that was left of her children, is not told, but the Bowling Green Democrat, which gives the account, says the poor mother is now quite bereft of reason, and that the event has created a profound sympathy in the whole community.

AN intelligent gentleman, residing in Vicksburg, Mississippi, says that "ten Daniel Websters and as many Henry Clays could not make the South submit to the laws of the land, or be true to the Government, since Andrew Johnson joined the rebels, if it were not for the colored people, and that these people not only till the soil, feed their late masters, *but save the North and West from the curse of repudiation*. But with this important element all will go right, and those who are not convinced will yield."

THE commission to audit claims for damages arising from the John Morgan raid into Indiana has been in session in the southern counties of that State for some weeks past.—Its business is nearly completed. The number of these claims is immense. It reached nearly five hundred in Harrison County.—Over three hundred have been allowed in Ripley County. Among the items allowed are $16,000 to the Ohio and Mississippi Railroad, and $13,000 to the Madison road. The claims so far allowed foot up about four hundred thousand dollars.

DAVID STONER, a citizen of Pennsylvania, who removed in 1863 to Tuscarawas county, Ohio, was drafted before his departure, but obtained his release by proof that he was over age. But a few months since he discovered that he had been mistaken, and that he was at the time of the draft actually liable. Whereupon Mr. Stoner last week deposited $300, and sent the draft to Washington as exemption money.

THE office of Mr. Carrington, the District Attorney in Washington city, was set on fire on the 6th, and but for the timely discovery of the fire, might have been destroyed. Mr. Carrington has in his possession all the papers, &c., appertaining to the trial of John H. Surratt, and the design of firing his office is supposed to have been to destroy the same.—There is no clue to the incendiary.

SUNDAY HORSE CARS.—The Supreme Court, in banc, at Pittsburg, has given a decision to the effect that the running of horse passenger cars on Sunday is a work of necessity, and not forbidden by the existing laws of the State. The decision was pronounced by Judge Read, Judges Woodward and Thompson concurring, and Judges Strong and Agnew dissenting.

MINNEAPOLIS, Minn., is now in direct railroad communication with Boston. The first through car reached Minneapolis about two weeks ago. Its route was *via* Springfield, Albany, Buffalo, Cleveland, Toledo, Chicago and Prairie du Chien—a distance of *over seventeen hundred miles*.

Local Items.

DIVIDEND.—The Gettysburg Water Company has made a Dividend of five per cent.

APPOINTED.—Gov. GEARY has re-appointed ROBERT MARTIN, Esq., Notary Public for Gettysburg, for a term of three years.

RED BEETS.—Messrs. WILLIAM and ALEXANDER CURRENS have sent us four Mammoth red beets, which are among the largest we have ever seen.

DIRECTORS OF THE POOR.—The Board now consist of Messrs. John Nunnemaker, *President*, John Rahn, and Martin Getz.—The term of Col. Graft expired on Monday of last week. The appointment of officers will be made next month.

SAD ACCIDENT.—SAMUEL BUCHER'S wife was recently severely burned while at work at the stove. Her clothes caught and communicated to the carpets and bedding. Her husband, hearing her screams, came to the rescue in time to save her life. She was much injured.

COUNTY COMMISSIONERS.—The new Board organized on the 1st. Abraham Krise retiring, and Jacob Lott entering on his duties. The Board now consist of Samuel Wolf, *President*, Nicholas Wierman, and Jacob Lott. E. B. Buehler, Esq., has been re appointed Attorney to the Board, and Jesse M. Walter, Clerk.

CALL ACCEPTED.—Rev. H. C. GROSSMAN has accepted a call to the Lutheran church at New Chester, and has entered upon the duties of the pastorate. Mr. GROSSMAN succeeds Rev. D. M. BLACKWELDER and was licensed to preach at the recent session of the East Pennsylvania Synod, held at Pottsville.

AGRICULTURAL HALL.—This new Hall is to be plastered and completed at once—gas and benches introduced, and all else done which may be necessary to prepare it for public use. General TOM THUMB, wife and party have engaged it for two of their attractive levees on the 27th inst. We are glad, this great need of our town has at last been supplied.

RAILROAD ITEM.—JOSEPH S. GITT, Esq., of this county, has gone to Bangor, Maine, to take charge of 100 miles of the European and North American railroad—Mr. GITT is a good Engineer, and an experienced and valuable railroad man; and is greatly esteemed for his admirable qualities as a citizen.

TOWN IMPROVEMENTS.—In addition to those recently noticed, we have the following to mention:

E. B. BUEHLER, Esq., is having his residence, on Baltimore street, raised to two stories and an attic, and a pressed-brick front put in.

WM. KOPPUS is having a two story brick residence erected, on Stratton street, beyond the railroad.

THE LITHIA SPRINGS.—Mr. HARMON has, it is understood, successfully negotiated with a New York party for a lease of the right to bottle this water, for which a large demand has been created. These persons visited town last week; and have made a conditional purchase of property which they deemed important in the prosecution of their business. They have contracted for 10 acres of Timber adjoining the Harmon property, and belonging to Messrs. FAHNESTOCK and EICHELBERGER, for $200 an acre; and for the farm of Hon. EDWARD MCPHERSON, 116 acres, for $8,000. The indications are favorable to a systematic and extensive introduction of this valuable water.

THE RAPE CASE.—We alluded last week to the rumor of a rape having been recently committed in the neighborhood of Littlestown. Since then, we have ascertained more accurately the state of the case. ANNA CLOUSER of Germany township, made information on the 19th of October, before Esquire S. S. BISHOP, that on the 13th of October, WILLIAM GROFT, colored, of Germany town-ship, assaulted and ravished her at the house of JACOB ZAUM. GROFT was arrested, and escaped from the custody of the constable, and has not since been heard of. There appears to have been unpardonable negligence in permitting any opportunity for the escape of the prisoner.

PROPERTY SALES.—Samuel Herbst has bought of Rev. Dr. Schmucker, a half lot of ground adjoining the latter's residence, for $1,000, and will build a residence next spring. Mr. Herbst is one of our most enterprising citizens.

Samuel Herbst has also bought from Mrs. Hannah Kitzmiller, her house and lot on Railroad street, between Carlisle and Washington, for $1,025, and intends to build, next season, a large Barn.

Mr. John Bushman has purchased the property of Hon. Joel B. Danner, on Breckinridge street for $750.

Matthew Eichelberger has sold his row of four houses on Chambersburg street, below West, to Fahnestock Brothers and William A. Duncan, for $2,500 each. They have resold two of the houses—that on the eastern end to William T. King for $1,000; and that next to the western end, to Wm. E. Culp for $900.

Perry J. Tate has sold his house and one acre of ground on the Chambersburg road, to Cyrus S. Griest, for $1,600.

Henry Bishop has purchased the farm of Henry Riddlemoser, in Cumberland township—122 acres, at $3,500.

Andrew McMaster has sold his property in Middletown—17 acres, with improvements—to Abraham Hoffman, at $2,500.—Mr. McMaster has purchased a house and lot in Baltimore street, Hanover, from L. Weaver, at $1,500 cash.

William Lott, Esq., has bought the property of John Sheeleigh, in Mountpleasant township—about 14 acres—for $1,500.

Theodore Bender is completing a large and excellent two-story brick house on his farm in Cumberland township.

William D. Himes, Esq., of New Oxford, recently bought the Margaretta Furnace property, near Wrightaville, at Sheriff's sale, for $26,000.

Mr. John Norbeck has sold his house and 6¼ acres of land in Hamilton township (Green Ridge P. O.), to Henry Speck, of the neighborhood of Gulden's Station, for $1,600 cash.

IMPROVEMENTS.—At New Salem a commodious store building has just been completed for our old friend whose return to the county has been welcomed by a host of admirers, JACOB F. LOWER, whilst two-story brick dwellings, for ABRAHAM MICKLEY and WM. STOVER, are receiving the finishing touches. SAMUEL RICHOLTS has considerably improved his hotel property. A number of new houses are talked of to go up in the spring. JEREMIAH BIESECKER is erecting a house and barn a short distance this side.

At Seven Stars (P. O.), four miles from Gettysburg, Capt. JAMES MICKLEY is adding all the necessary outbuildings to the two-story brick house he built last year.—ELIAS HARTMAN has just completed a two-story brick residence, and WM. SHETTLE has added a two-story brick back building, and repaired and re-painted his entire dwelling. WM. RUSSELL has in progress a commodious frame dwelling.

Cottville, three miles from Gettysburg, near Marsh Creek, is also looming up. WM. WALTER has had his handsome dwelling finished—CHAS. B. POLLEY is erecting a two-story brick, and NOAH F. LOTT will soon have up a comfortable frame dwelling.

FEMALE BIBLE SOCIETY.—Rev. Prof. FERRIER preached the Annual Sermon before this Society, on Sunday evening last, after which the following Report was read:

The Executive Committee of the Gettysburg Female Bible Society, would respectfully submit the following report:

The anniversary exercises were held in the German Reformed Church, Sabbath evening, November 11th, 1866. A very interesting discourse was delivered by Rev. Prof. MUHLENBERG. The exercises were participated in by Revs. CARNAHAN and BOUSE.

The Committee made their regular annual collections.

The amount of money sent to the Parent Society exceeds any previous amount since 1857.

An effort has been made by the two Societies of town, to organize auxiliaries throughout the county, but thus far the effost has proved unsuccessful.

The Treasurer's report is as follows:

Amount received for last year's membership, after receipts for the year had been forwarded,	$1 50
Collection in Ger. Reformed Church, November 11, 1866,	25 00
Amount received for membership,	64 84
Bibles sold,	3 25
Total,	$94 59

At the meeting of the Society last evening, the following officers were elected for the ensuing year:

Mrs. Elizabeth Agnew, President; Mrs. John Winebrenner, Vice-President; Mrs. Rev. Dr. Jacobs, Secretary; Mrs. Samuel Fahnestock, Treasurer.

A BIT OF A SURPRISE.—The Ev. Lutheran Parsonage in Littlestown became the scene of a rather unusual occurrence on last Wednesday night. A "Morning Glory" stove having been set up, of course a number called to see how it worked. But in a brief space the company became so large as to excite the apprehensions of the occupants of the house, and wonder was expressed at the almost universal curiosity manifested to see a new stove. The true idea of the gathering soon became apparent. The ladies of the party made their way into the "kitchen arrangements," and in a brief space, a tablecloth laden appeared. At once the company gathered around it, and all enjoyed themselves, as only those do, who endeavor to produce gratification in others. After several hours spent in lively chat and innocent pleasure, the company retired to their homes, leaving the evidences of their visit in the hearts of the Pastor and family, which were cheered and delighted with the respect and attachment displayed by the people of Littlestown. The recipients of the "surprise" desire to return their sincere thanks for the kindness shown.

☞ The Gettysburg Building Association has been in operation six months, and is in a very prosperous condition. A statement made at the last meeting, by a committee appointed to prepare it, shows that $1,571.88 have been made in premiums, $121.80 in interest, and $11.90 in fines during that time, and that the assets over liabilities are $8,208.28. The amount which has been paid on each share is $13.00, of which the actual value is $16.41½, and the market value is about $25.

The amount appropriated was one million and a half of dollars. Of this sum less than a million has been expended, and the most expensive part of the work is nearly over.

A correspondent writes from Georgia: "You would hardly believe, were I to tell you the absurd hopes excited in the Southern bosom by the recent Democratic successes in the North. One result the planters regard as certain. 'We shall all be paid for our niggers,' they say, 'in less than three years out of the national treasury.' I know of several planters who have already made out all necessary papers, with descriptions, affidavits, &c., to support their claims." The Copperhead programme grows more and more charming every day. No more whiskey tax, no more excise, no paying our own debts, but full payment of all the damages suffered by the rebels, including cotton claims, nigger claims, and, in the end, we suppose, the Confederate debts.

HONEST WEIGHTS and measures are due to the public, and, in the long run, most profitable to the dealer. THE UNION PACIFIC RAILROAD—ALL RAIL TO THE ROCKY MOUNTAINS.

Not even this country of great achievements has ever before undertaken any industrial enterprise so important as the building of a railway to the Pacific ocean. Less than twenty years ago, Col. Benton advocated in Congress a railroad, "where practicable," across the country from the Mississippi to the Pacific coast; but his moderate proposal was considered so far in advance even of this progressive age. And yet to-day, more than one-third of this vast work has been finished. The Union Railroad Company, organized in 1863, began to build in 1864, had only fairly got to work in 1865, and in October, 1867, have completed five hundred miles of road which has been pronounced by Government Commissioners first-class in construction and equipment.—This Company is constructing the eastern end of the line, beginning at Omaha, Nebraska; while the Central Pacific Company is building the western end, beginning at Sacramento, California.

The peculiar and impressive features of the Pacific Railroad are: 1st, Its importace as a national enterprise; 2d, The especial privileges granted to it by the Government; and 3d, The unusual care taken by the Government enactments for the safety of investment in its securities.

The national importance of a railroad to the Pacific can hardly be overestimated. The Government is spending millions of dollars annually in transporting men and material to its frontier posts; with a railroad in operation, this expense will be reduced at least three-fourths. The gold and silver mines of the Western States and Territories yield annually about one hundred million dollars: with the increased facilities for emigration, and for transporting the requisite machinery for the thorough development of the mining region which a railroad will afford, this production will be at least doubled. The public lands in Nebraska, and in the Territories west of that State, have been comparatively worthless, because they were inaccessible, and consequently, unproductive; the Union Pacific Railroad opens all the great valley of the River Platte and vast regions beyond to the occupancy of thrifty emigrants, and has already established such a succession of thriving towns as will bring all land in the vicinity of the railroad into active demand. In case of foreign war or domestic revolution, the existence of a railway line, by which troops could be conveyed from the Atlantic to the Pacific, or *vice versa*, in a week, would be of incalculable value: while under any circumstances of internal trouble, necessitating a repetition in kind of the Utah expedition, the saving to the Government by means of this road would be enough to construct the entire line. Gen. Sherman has said that "The Government could afford to build the whole road rather than be without it," and there are abundant reasons for pronouncing this opinion a sound one.

So great are the manifest national advantages to be derived from a Pacific Railroad, that the two powerful companies authorized to build it received very extraordinary grants from Congress. Donations of land were made to the companies to the amount of 12,800 acres per mile; and then United States bonds, to an average amount of about $30,000 per mile, were advanced to the Companies, which have the privilege of paying a large part, if not all, of this indebtedness to the Government, by the transportation of mails and war and other national material. No other industrial enterprise ever received so liberal aid from the Government as this.

Having made such special grants as indicated its entire confidence in the full success of the undertaking, the Government took unusual care that those who joined with it in assisting the Union Pacific Railroad Company should be amply secured against any probability of loss or failure. The Company was authorized to issue its own bonds to an amount equal to the advances of the Government, and these bonds constitute the first mortgage upon the road, the claim of the Government being made a second lien. The Government appoints five Directors, who shall look carefully after the management of the road: and also three commissioners, whose duty it is to thoroughly inspect each section of twenty miles, before the bonds can be issued upon that section. Thus the bonds represent, not a projected enterprise, which *may* be completed, but a finished and equipped railroad, earning very largely in excess of its expenses, and with a future which cannot fail of being eminently profitable.

The future business of the only railroad connecting the Atlantic and Pacific states must be something marvelous, and we venture the prediction that no single track will long accommodate the endless succession of trains that will crowd its entire line. Western Europe is waiting for it, as the shortest route to Eastern Asia; and how many anxious hearts in the old home states are longing for it, to join hands with friends and relatives, without the cost and risk of a long, dreary and dangerous voyage in a crowded steamer along two oceans.

But if the business of the completed line is to be something marvelous, the local business on the sections already finished is not less satisfactory. The earnings on three hundred and twenty-five miles for a single quarter this season are officially reported at one million dollars, and as the road goes further towards the great mining regions, this sum must be increased.

Every reader of this sheet is interested in the rapid prosecution of this work. Every new agricultural or manufacturing community established by the opening of this road will add to the national wealth and and in paying the public debt. Every acre of land hitherto unimproved, which shall now be cultivated, increases the store of food for our own population or for export. Every additional ton of gold or silver that is mined puts money in the public purse. The road will be the great agent in the development of the American continent, and its completion in 1870 will benefit an entire population. With such a future before it as the finished line is certain to have, and with so many guarantees for the protection of the interests of those who invest in it, we cannot but think that its bonds constitute one of the best investments now before the American people. Their special advantages are set forth elsewhere, and the character of the financial officers of the Company is sufficient guarantee that those advantages are not exaggerated in the slightest degree.—*Exchange.*

The Plan of the Washington Library Company of Philadelphia, for the endowment of the Riverside Institute for Soldiers and Sailors' Orphans, is one that has been laid out in strict accordance with the terms of the charter as granted for this purpose by the Legislature of Pennsylvania. This charter of the Washington Library Company legalizes the very acts that its members are now performing for this noble object. The plan, as most of our readers are aware, consists in selling stock at $1 per share, each share or shares being accompanied by a handsome fine steel-plate engraving, worth fifty per cent more than is actually paid for the stock. Besides this, every share of stock secures one present in the great distribution of presents to shareholders. Of these presents the aggregate value is $300,000, one of them being worth the enormous sum of $40,000, another $20,000, another $10,000, and one worth $5,000, and two worth $2,500 each, several worth $1,000 each, and so on. This is simply the plan in brief as adopted and presented to the public. Every shareholder will obtain some present in the great distribution, besides the beautiful engraving at the time of purchase, and each one has an equal chance of getting a small fortune. It

PORT WINE.—There have been, at various times, articles introduced to the public under the name of Port wine, strongly recommended for medicinal purposes, which are calculated to do more harm than good, having little else than the name to recommend them. Such, however, is not the case with the Port Grape Wine, advertised by Mr. A. Speer of Passaic, N. J. We have seen his vineyard, and the wine in process of manufacture, and know it to be the pure juice of the grape. We have also been through his cellars, which never contain less than sixty thousand gallons, and seen casks piled on casks maturing. Mr. Speer does not bottle or sell any under four years of age.—*Peoria Transcript.*

Two Tablespoonfuls of the EXTRACT of Sarsaparilla added to a pint of water, is equal to the Lisbon Diet Drink; and one bottle is equal to a gallon of the syrup or Sarsaparilla, or the decoctions usually made.

An interesting Letter is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla, in certain effections by Benjamin Travers, F. R. S., etc. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with the invaluable attribute, that it is applicable to a state in the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.

5 0 0 MILES

OF THE

Union Pacific Railroad,

RUNNING WEST FROM OMAHA

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

THE Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

FORTY MILLION DOLLARS IN MONEY

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railway, to develop and protect its own interests, it gave the Companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States take a *second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of the bills in money for transporting its troops, stores, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.—The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and *no more, and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, ex-Governor of New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in strict accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1 50 per acre at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized Capital of the Union Pacific Railroad Company is $100 000,000, of which over $6,000,000 have been paid on the work already done.

THE MEANS SUFFICIENT TO BUILD THE ROAD.

Contracts for the entire work of building 914 miles of first class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except right of way, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage and freight cars, and other requisite rolling stock, to an amount that shall not be less than $2500 per mile. Following the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discounts on bonds, surveys, &c	4,500 000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital Stock paid in on the work now done	6,382,750
Land Grant, 14,080,000 acres, at $1 50 per acre	21,129,000
Total	$86,145,750

The company have ample facilities for supplying any deficiency that may arise in means for construction.—This can be done wholly or in part by additional sub scriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer part of them for sale. Whether this proves to be required to enable the company to pay the Government bonds when they fall due, or whether the Company may find it more important sooner to reduce the indebtedness of the road, it is confidently believed that the Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

FUTURE BUSINESS.

The most sceptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two great divisions of the American continent, will be one of the wonders of railway transportation; and as it will have no competitor it can always charge remunerative rates.

EARNINGS FROM WAY BUSINESS.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation.—The Superintendent's Report shows the following result

EARNINGS.

Passengers, Freight, Telegraph and Mails	$723,755 54
Transportation of Contractors' Material and Men	479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,339 92
NET EARNINGS to balance	807,698 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were $237,266 50. The payment for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$ 23,755 54
Expenses	2 7,966 50
Net Profits	$485,789 04

The amount of Bonds the Company can issue on 325 miles, at $16,000 per mile, is $5,200,000. Interest in gold, three months, at 6 per cent., on this sum, is $78,000; add 40 per cent. premium, to cover gold with currency earnings, is $31,200—showing that the net earnings for the quarter were *more than four times the interest* on the First Mortgage Bonds on this length of road.

FIRST MORTGAGE BONDS,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the *safest* investments. They pay

SIX PER CENT. IN GOLD,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at SIX Per Cent. in Currency from July 1.

Many parties are taking advantage of the present high price of Government bonds to exchange for these Bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium on gold pay

A DESIRABLE

TOWN PROPERTY

AT PRIVATE SALE.

THE undersigned offers at Private Sale, the old DOBBIN DWELLING, at the junction of the Taneytown and Emmittsburg roads, in the borough of Gettysburg. The house is substantially built, of stone, and contains twelve large rooms. There is a strong, never-failing Spring of water in the basement kitchen, and 1½ Acres of land connected with it. The location is a very pleasant one, and with a little additional outlay this could be made one of the most commodious and desirable homes in the borough or its vicinity.

THE ADAMS COUNTY TEACHER'S INSTITUTE

Will meet in the Public School Building, New Oxford, at 10 o'clock A. M., on *Monday, November 25th.* The evening sessions will be held in the Lutheran Church. The exercises will consist of Lectures, Addresses, Reports, Essays, Class Drills, Discussions, &c.

Supt. Wickersham and Deputy Supt. Coburn, of the State Department, Dr. Brown and Prof. Ehrhart of Gettysburg, Dr. Pfeiffer, of New Oxford, Prof. Brooks, of the Millersville Normal School, Prof. Thompson, of Lancaster, Prof. B. G. Boyd, of York, S. S. Jack, Esq., of Westmoreland county and others, have been engaged for the occasion. An interesting and profitable meeting is expected; hence a full attendance is desired.

According to Act of Assembly, approved April 9th, 1867, "a Teacher's Institute must be held in each county of the Commonwealth, and must continue in session at least five days, including a half day for going and a half day for returning." The same act also authorizes directors to grant teachers the time, and make it binding upon teachers to attend. The Committee on permanent certificates, required by law, will be elected on Monday afternoon. The citizens of New Oxford have kindly proposed to entertain as many of the teachers as possible in private families. The usual reduction will be made at the hotels. Arrangements have been made with the several railroad companies for a reduction of fare to all who may attend. All who wish to go by railroad must *be here by 7:30 on the morning of the 25th.* Directors of Schools and the friends of Education generally are cordially invited. AARON SCHMUCK, Co. Supt.

ADVERTISER'S GAZETTE. New Vol. Price advanced to $2 per year in advance. Single copies 25 cents. Specimen copy sent free. This paper includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage and freight cars, and other requisite rolling stock, to an amount that shall not be less than $2500 per mile. Following the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discounts on bonds, surveys, &c	4,500 000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital Stock paid in on the work now done	6,382,750
Land Grant, 14,080,000 acres, at $1 50 per acre	21,129,000
Total	$86,145,750

The company have ample facilities for supplying any deficiency that may arise in means for construction.—This can be done wholly or in part by additional sub scriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer part of them for sale. Whether this proves to be required to enable the company to pay the Government bonds when they fall due, or whether the Company may find it more important sooner to reduce the indebtedness of the road, it is confidently believed that the Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

FUTURE BUSINESS.

The most sceptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two great divisions of the American continent, will be one of the wonders of railway transportation; and as it will have no competitor it can always charge remunerative rates.

"These exercises were composed to be used simultaneously with his system, "THE ART OF SINGING," or with *any other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dolce e facile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intellige nce and the appreciation, and at the same time form the taste of the pupil. A LIBRARY OF UNIVERSAL INFORMATION.

THE NEW

AMERICAN CYCLOPÆDIA:

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information. In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and its stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is preeminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

DICKINSON

Comb College

AT CARLISLE, PENNA.

HIGHLY IMPORTANT TO YOUNG MEN CONTEMPLATING A BUSINESS EDUCATION.

TO know that this Institution employs none but competent instructors in every department, and a sufficient number to insure individual instruction to all of its students, and being connected with "Dickinson Seminary," affords unusual combined facilities of the highest order, while the current expenses attending a course here, are from 50 to $100 less than at similar institutions in large cities. We think that when these facts are properly understood by those who contemplate entering an institution of this order, they will not be long in deciding in favor of Carlisle.

The following course of Instruction should commend itself to all, who desire that kind of information most requisite to prepare them for any of the *business pursuits* in life.

BOOK-KEEPING.

Single and Double Entry as applied and practiced in the various departments of Trade and Commerce, and Banking Houses of the country.

PENMANSHIP.

Livery Stables.

GETTYSBURG LIVERY,

SALE & EXCHANGE STABLES.

THE Proprietor of these Stables, feeling thankful for the liberal patronage heretofore received, begs leave to inform the public that he continues the LIVERY BUSINESS at his old stand on Washington street, Gettysburg, near the Railroad, where he is prepared at all times to accommodate persons with anything in his line.

HORSES, COACHES, BUGGIES, &c.,

furnished at short notice and on reasonable terms, and competent drivers sent along if desired. Persons will be conveyed to other towns, or to any place in the country. His stock and Coaches are of the first class, and no pains will be spared to make passengers comfortable. He is prepared at all times to furnish coaches for funerals; and also to parties desiring to go over the Battle Field or to visit the Springs.

ALSO—HORSES AND MULES

will be bought and sold at all times. Persons desiring to purchase stock will find it to their advantage to call on the undersigned, as his stock is warranted to be as represented or no sale. He has a fine lot of Horses and Mules at present on hand which will be sold on reasonable terms. They are sound and free from disease, and are guaranted to work as represented. Persons will find it to their advantage to call at the old stand before hiring or purchas
